

California Energy Commission

CLASSIFICATION: Associate Electrical Engineer

TENURE: Permanent

TIME BASE: Full Time

SALARY: \$6,898 - \$8,378

(salary will be adjusted accordingly to comply with furlough program)

LOCATION: Efficiency and Renewable Energy Division
Sacramento, CA

FINAL FILING DATE: June 7, 2010

DUTIES/RESPONSIBILITIES:

The Appliance and Process Energy Office's Appliance Standards Unit's mission is to develop, implement, and maintain technically feasible and cost-effective appliance energy and water efficiency standards in pursuit of decreasing energy consumption and costs and thereby increasing prosperity and quality of life for all Californians. This mission is first accomplished by identifying and analyzing energy efficiency measures appropriate in mandatory standards for appliances sold and offered for sale in California, and further accomplished by conducting all necessary appliance data certification, compliance, and related enforcement activities for appliances sold or offered for sale in California.

The Associate Electrical Engineer will perform difficult electrical engineering tasks and prepare detailed energy efficiency electrical engineering analyses and technical studies for appliance efficiency under the Energy Commission's Appliance Efficiency Program. In that capacity, the incumbent serves as a technical resource person to provide advice for development of appliance efficiency standards and related electrical engineering test procedures, and makes recommendations on specific electrical engineering problems to determine the societal costs and benefits of appliance efficiency programs.

DESIRABLE EXPERIENCE/QUALIFICATIONS: The successful applicant should have

The successful applicant should have:

- knowledge of the Appliance Efficiency Standards;
- knowledge of electrical engineering specifications for appliance efficiency measures;
- ability to communicate ideas effectively; and
- strong written and verbal communication skills.
